SKILLS

Languages
C++ · C# · Java · Python · JavaScript · TypeScript · SQL · HTML · CSS · ASM (Game Boy)

Engines & 3D
Unity · Unreal Engine · Blueprints · SFML · Blender · 3ds Max · Meta Quest / VR

Web & mobile
Angular · React · Node.js · Express · Ionic / Capacitor · Android Studio · Socket.IO

Data & systems
MySQL · SQLite · MongoDB · Linux · Networking (TCP/IP) · Git

Artificial intelligence
Claude Code · AI-assisted development · Reviewing generated code · AI-assisted debugging

LANGUAGES

Spanish	Native
English	Advanced
Valencian	Advanced

OTHER

Driving licence (B)

Own vehicle

Vicente Torres Gallo

MULTIMEDIA ENGINEER · GAME & WEB DEVELOPMENT

PROFILE

Multimedia Engineering student at the University of Alicante, focused on game development and interactive experiences, with a solid full-stack web background. I've built games in Unity, Unreal Engine 5, C++ with SFML, a custom C++ engine and Game Boy assembly, and won GameJam Alicante 2025. I learn fast, stay organised and work well in teams. I'm looking for an internship or first job where I can contribute to real projects.

EXPERIENCE

Programmer & 2D/3D artist · Icy Beak Studios — *Sep 2024 – Jun 2025*

- "Donut Panic!": '90s-style FPS built on our own C++ graphics and game engine, in a team of 5. Programming and 2D/3D art.
- 1st place at GameJam Alicante 2025 with "Bubble Buddies", a voice-controlled 3D platformer made in Unity in under 48 h.
- "Cosmic Muncher" for Game Boy in assembly with an ECS engine: lead artist, programming and level design.

SELECTED PROJECTS

EscAPE — *Unreal Engine 5.5 · VR · 2026*
Virtual reality experience for Meta Quest 3. Solo project using Blueprints and C++ base code.

Escape Room Lab — *Unity 6 · C# · 2026*
Technical test for Virtual Zone: 3D escape room with physics puzzles, audio, post-processing and Blender models.

Forgotten Wonders — *C++ · SFML · 2025–2026*
RPG with minigame-based combat, in a team of 5. In charge of maps, level transitions, world saving and camera.

Time Clock App — *Angular · Ionic · Node · MySQL · 2025*
Cross-platform time-tracking app with geolocated clock-ins, user roles and an admin panel.

ToDo App + microservices — *Angular · Express · MongoDB · 2024*
SPA backed by two custom REST services: a CRUD API and JWT/bcrypt authentication.
Portfolio: vicente-torres-gallo.vercel.app

EDUCATION

BSc in Multimedia Engineering · Universidad de Alicante — *2021 – present*
Game development, object-oriented programming, data structures and algorithms, web and cross-platform development, databases, modelling and animation, UI/UX design, networks, systems and cybersecurity.

High school diploma (Technology) · Colegio María Auxiliadora – Salesianas Alicante — *2014 – 2020*
